

Sonification, electronic physical instruments,
aesthetic experiments and their role in my work

Jonáš Gruska
Bachelor's Thesis
Institute of Sonology

June 18, 2012

Contents

1	Introduction	3
2	Sonification and audification experiments	4
2.1	Thoughts on current state of sonifying	4
2.2	Wireless data sonification	4
2.3	City attributes sonification	4
3	Modularity and physical instruments	5
3.1	Reinvention of the physical musical environment	5
3.2	Musical possibilities of microcontrollers and reachable computers	5
4	Aesthetic development	6
4.1	Overview of latest research regarding aesthetical perception . . .	6
4.2	Personal experiments with forced aesthetics	6
4.3	Personal experiments with brain creativity stimulation	6
5	Conclusion	7
6	References	8
